The story unfolding...

LiLiz[™]

BEHIND THE SCENE

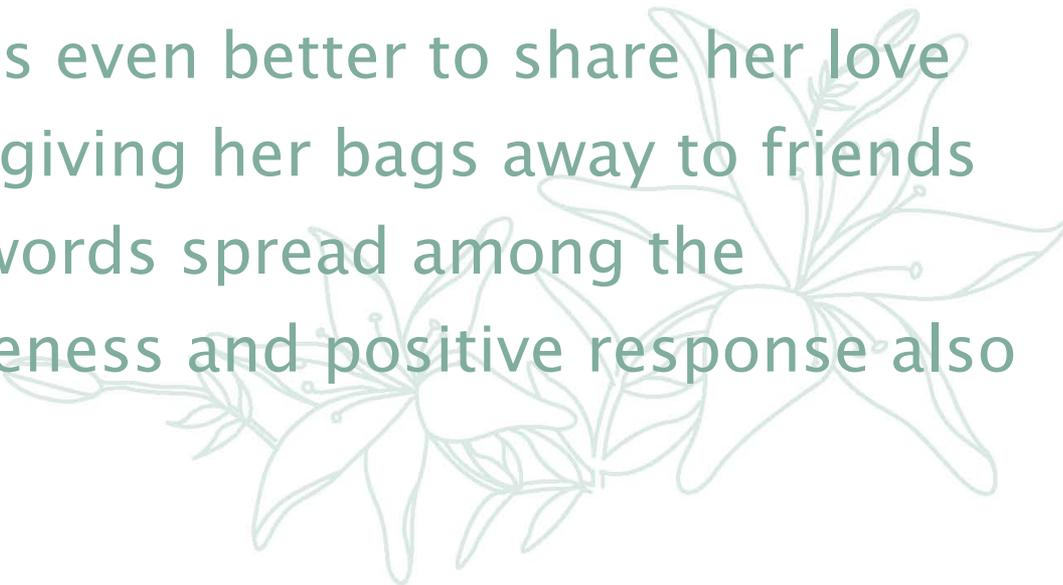

• Ever since the first bag created by Lily Chen since 2000, the popularity for these delicately crafted bags have grown throughout the years. She always has a special passion for cut and sew coming from a family of professional tailors.

• She learned the knowledge and techniques at a very young age. But it wasn't until recent years, she realizes that her hobbies has turned into her profession.

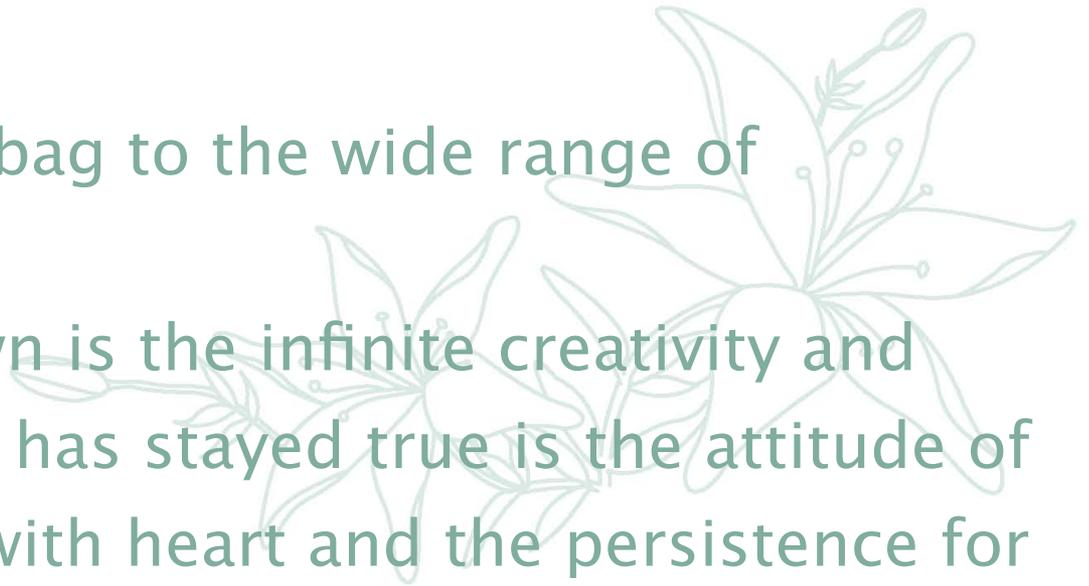

•She first started making bags as her hobbies; however, after awhile she found out that all her bags are really piling up at home. Although she loves and wants to keep them all, but it is even better to share her love and passion through giving her bags away to friends and families. As the words spread among the community, the awareness and positive response also developed.

•While many boutique stores start to request for her bags, these bags also start to gain popularity among some exclusive groups of women with specific tastes for custom handmade bags. Her spare time was then no longer sufficient to keep up with the demand for her bags.

- With the tremendous supports from her family and friends, she eventually move forward to take on bag designing and making as her profession. Doing what she loves for a living was like a dream for her.
- From the very first bag to the wide range of products today, what has grown is the infinite creativity and innovation, and what has stayed true is the attitude of sharing the passion with heart and the persistence for quality on every single detail.

The Heart & Soul behind...

LiLiz[™] **DESIGNER, LILY**

Having grown up in a family with parents in professional tailoring, she acquired skills for tailoring and knowledge for textiles rather early in her childhood. However, it wasn't until later in her career that she re-discovered that her passion for craft, design and fashion all come together in the form of handbags and fashion accessories.

Behind the Craftsmanship...

LiLiz[™]

OBSESSIONS

Great attention to details are been carried out throughout the making of each LiLiz piece. Not everyone will notice or even care about what has been done in the process. But, we would like to share some insight to those that might be interested.

To share a few of the LiLiz obsessions in the delicate craftsmanship ...

- Three-dimensional Corner or Corner Padding
- High Density Inner Lining
- Patchwork

...

- These detail areas are only the icing on the cake, but they happen to be what separate handcrafts with a personal touch from mass market consumer products.

True appreciation...
*Li Liz*TM **SENSATION**

- To truly appreciate the value behind each piece, we need to look from afar and up close.
- The lines you found on each crafted piece present itself in a precise yet elegant manner.
- Walk your way along each seam; you will feel the magic sensation on how each patch of fabrics is pieced together so perfectly.

- Why not touch it and really feel the fabrics with your bare skin, these fabrics have been specifically chosen not just for their appearance, but for their quality in raw material and printing .
- We believe that we are all "Born to Touch and be Touched". Let it be emotional or physical; LiLiz give you both.

The personal touch...

LiLiz[™] SIGNATURE SERIES

- We are passionate about making bags for women that share the same enthusiasm for finding a bit of personal touch in our daily life.
- Every thread and needle in the making of our bags is empowered by hearts and souls of our skillful team of designers and bag makers.
- We sign our works because it is our personal joy to share.
